REQUEST LETTER

4/3/26

From

Aswani M S

Nature club coordinator

ACKHM ICA College, Thozhiyoor

To

The Principal

ACKHM ICA College

Thozhiyoor

Respected sir,

I humbly request permission to celebrate World Water Day in our institution by conducting an awareness programme focused on the importance of keeping our water resources clean and healthy.

The programme is proposed to be organized on 6/03/2026 at 10:00 AM by the Nature Club in association with the Department of Food Technology.

The event will include an awareness session highlighting water conservation, prevention of water pollution, and responsible use of water resources. In addition, students will be given hands-on practical experience in testing the pH of different water samples. This practical activity will enable students to understand water quality assessment and promote scientific awareness regarding environmental protection.

We kindly request your approval to conduct this programme on campus. We assure you that the event will be organized in a disciplined and systematic manner under proper supervision.

Thanking you in anticipation of your positive response.

Yours faithfully,

ASWANI M S

CIRCULAR

The Nature Club is celebrating **World Water Day** on 6th March 2026 at 10:00 a.m. in the Third Year Food Technology Classroom to create awareness about the importance of water conservation and sustainable water management.

The programme will include an awareness session highlighting the significance of protecting our water resources. Participants will also be given hands-on experience in testing the pH levels of different water samples to understand water quality and its impact on health and the environment.

All students are encouraged to participate actively in this informative and practical learning experience.

REPORT OF WORLD WATER DAY CELEBRATION

The Nature Club of A.C. Kunhimon Haji Memorial ICA College, Thozhiyoor, in association with the Department of Food Technology, organized a World Water Day awareness programme on 6 March 2026 at 10:00 AM in the college campus. The programme was conducted with the objective of creating awareness among students about the importance of conserving water resources and maintaining water quality for a healthy environment.

The programme began with an introductory note by the Nature Club Coordinator, Aswani M S, who explained the significance of World Water Day and the need for responsible use of water resources. The awareness session was handled by Suhaila Kabeer, a member of the Nature Club. She delivered an informative talk on the importance of water conservation, prevention of water pollution, and the role of individuals in protecting water resources. The session helped students understand the current challenges related to water scarcity and the importance of sustainable water management.

Following the awareness session, a practical session was conducted by Aswani M S, Assistant Professor, Department of Food Technology. During the session, students were given hands-on experience in testing the pH of different water samples. The activity helped students understand the concept of water quality assessment and the importance of monitoring water parameters to ensure safe and clean water.

The programme was highly interactive and students actively participated in both the awareness and practical sessions. The event successfully created awareness about water conservation and encouraged students to adopt responsible practices for protecting water resources.

The programme concluded with a vote of thanks, expressing gratitude to the college management, faculty members, and students for their support and participation in making the programme a success.
